

Testimonial For Beard and Partners Executive Search

This letter serves as a formal testimonial regarding the professional services rendered by Beard and Partners Executive Search.

The National Lotteries Commission appointed Beard and Partners to undertake a specialised search for the sourcing and appointment of an Evaluation Panel comprising seven (7) members. The panel required a balanced composition of expertise across Finance, Legal, Gaming, and Technical disciplines, with each member meeting highly specific and stringent criteria.

Beard and Partners executed this mandate within a very short timeframe and demonstrated a clear understanding of the complexity and importance of the assignment. Their ability to identify, engage, and secure suitably qualified professionals across multiple disciplines was highly impressive.

The process was conducted in a professional, structured, and efficient manner, with clear communication and a strong focus on quality throughout. The final shortlist presented met all specified requirements, both in terms of technical expertise and overall composition, resulting in a successful outcome.

We recommend Beard and Partners Executive Search for complex, high-level recruitment.

However, candidates should undergo thorough background checks before being considered, as one appointee had previously resigned from his professional association following disciplinary action.

Yours sincerely,

Ms Tintswalo Nkuna
Executive Manager: Regulatory Compliance
National Lotteries Commission
